

TC-350 WHEEL CRUSHER

- Delivers 79,000 lbs of crushing force
- Optional 10 HP, 3 PH, 220/440 V electric motor or Kubota diesel engine available.
- Fully equipped with both electric brakes and trailer light package for night time towing.

PRODUCT FEATURES

The **TC-350 Wheel Crusher** is designed to crush over the road truck wheels including Dayton and Budd type wheels.

- Single crush stroke completes process quickly and easily.
- Comes equipped with a 18 HP B&S V-Twin gas engine with electric start.
- For safety purposes all equipment controls are located behind a heavy wire-mesh panel. The heavy wire mesh panel protects the operator during the wheel crushing operation.
- Equipped for towing, TC-350 is easily moveable to any salvage yard or holding site, eliminating the need of transporting the tires to the machine.
- The TC-350 is easy to operate, requires low maintenance, dependable and designed for years of service.
